## Configure Advanced Audit Policy

The screenshot displays the Windows Group Policy Editor interface. On the left, the tree view shows the hierarchy: WorkstationGPO [CorpDC.CORPNET.COM] Policy > Computer Configuration > Policies > Windows Settings > Security Settings > Advanced Audit Policy Configuration > Audit Policies. The 'Audit Policies' folder is selected. On the right, the 'Advanced Audit Policy Configuration' console is open, showing a 'Getting Started' section with a warning icon and text: 'When Advanced Audit Policy Configuration must also be enabled.' Below this are two links: 'More about Advanced Audit Configuration' and 'Which editions of windows support Advanced Audit Policy Configuration'. A summary table is provided below the links.

Categories	Configuration
Account Logon	Not configured
Account Management	Not configured
Detailed Tracking	Not configured
